**(54) DOMESTIC ELECTRIC APPARATUS EQUIPPED WITH DISPLAY MEANS AND OPERATION METHOD THEREOF**

**(57)Abstract:**

**PROBLEM TO BE SOLVED:** To provide a domestic electric apparatus capable of providing satisfactory operability by properly using a visual display and a voice with respect to the operation of the domestic electric apparatus.

**SOLUTION:** This domestic electric apparatus has a liquid crystal display part for displaying various pieces of guidance information concerning the operation of an apparatus and the abnormality information of the electric apparatus detected by a sensor as visual information. This apparatus comprises a memory device for recording a voice data concerning the display content in a tree structure, a display part for displaying the display content on the liquid crystal display part, an operation means for successively selectively outputting the voice information concerning the display content from the upper level of the tree structure of the memory device to the lower level, and a speaker for outputting the voice information, so that the voice data concerning the display content can be selectively outputted when the guidance information or abnormality information is displayed on the liquid crystal display part.

**LEGAL STATUS**

[Date of request for examination]

27.02.2004

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]
